

Drug Free Schools

The Policy on Drug Free Schools and Drug Free Workplace is the University's response to federal legislation, the Drug-Free Schools and Communities Act Amendments of 1989. It is distributed at least annually to all students, faculty and staff in an effort to educate our community about the continuing commitment to achieve a drug-free environment and to provide effective resources for our community.

For further information or for additional copies of the policy, see the University's [Higher Education Act Information webpage](#) or contact the Department of Human Resources or the Dean of Students office.
